

JASLEEN MINHAS

AI Engineer | Full-Stack Developer | Data Analyst

St. John's, NL, Canada | jasleen.minhas07@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Enthusiastic and versatile technologist with experience spanning machine learning, full-stack web development, and data analytics. Currently pursuing a Master's in Computer Science at Memorial University, with a proven track record of building scalable AI-integrated solutions, accessible educational platforms, and data-driven products across Canada and India. Gold Medalist in B.E. Computer Science (AI & ML).

EDUCATION

Master's in Computer Science (Course-based)

Jan 2025 – Dec 2026

Memorial University of Newfoundland | St. John's, NL, Canada

GPA: 4.0 | Focus: Software Engineering, Generative AI, Machine Learning, Data Science

Bachelor of Engineering in Computer Science (AI & ML)

Sept 2020 – June 2024

Chandigarh University | Punjab, India

CGPA: 9.01/10 | 🏆 Gold Medalist - Graduated Top of Class

WORK EXPERIENCE

Software Developer Intern

Jan 2026 – Present

Enaimco | St. John's, Canada

- Building and maintaining full-stack applications using TypeScript, Node.js, Express, and React.js, ensuring type safety and code quality across the stack.
- Designing and implementing MongoDB database schemas and queries, optimizing data storage and retrieval for high-performance applications.
- Deploying and managing applications on Microsoft Azure, implementing CI/CD pipelines with GitHub Actions for automated testing and deployment.
- Integrating Large Language Models (LLMs) into applications to enhance user experience with intelligent features and natural language processing capabilities.

Full-Stack Web Developer (Part-Time)

July 2025 – Present

Learning Disabilities Association of NL (LDANL) | St. John's, Canada

- Solely designed and developed Math-MATE - a fully responsive, accessible, and interactive educational platform for K1–K3 students with diverse learning needs and those in rural or remote communities.
- Built the front-end using React.js, Next.js, TypeScript, and TailwindCSS, with a focus on WCAG 2.2 accessibility compliance and performance optimization.
- Engineered secure Supabase-backed backend services including authentication, database schema design, REST APIs, and real-time progress tracking.
- Developed Figma mockups, custom themes, and reusable UI components; managed the entire project independently from design through deployment.

Data Analyst

Jul 2024 – Nov 2024

Sunlife Global Solutions | Gurgaon, India

- Designed and delivered interactive dashboards and performance reports using Tableau and Power BI, enabling real-time, data-driven decision-making across multiple business units.
- Automated data extraction, transformation, and reporting workflows using Python and Excel macros, reducing turnaround time by 40%.
- Utilized SQL and Snowflake for querying and managing large datasets, enhancing data accessibility and reliability for cross-functional teams.

Data Integration & Visualization Developer Intern

Jan 2024 – Jun 2024

Emerson Information Technology Solutions | Mohali, India

- Built and optimized ETL pipelines for 8+ data sources using MuleSoft, reducing processing time by 70% and ensuring accurate data availability for analytics.

- Developed scalable Power BI dashboards for 4,700+ users, enabling self-service analytics and improving decision-making speed by 50%.
- Improved data validation and quality checks, reducing reporting errors by 25%.
- Worked with APIs and Postman for system integrations, ensuring seamless data flow between enterprise applications and reporting platforms.

PROJECTS

Semantic Book Recommender | *Python, Hugging Face, FAISS, LLMs*

Jan 2025 – Apr 2025

- Built a semantic recommender system using transformer-based NLP models and FAISS vector search for fast, intelligent retrieval across large book datasets.
- Applied zero-shot classification to auto-tag books by genre and integrated sentiment/emotion analysis to enrich metadata with tone-based descriptors.

Finance Tracker WebApp | *React.js, Firebase, D3.js*

2025

- Developed a personal finance management application with real-time analytics, budget tracking, and smart spending insights.

AdSnap Studio — AI-Powered Product Ad Generator | *Python, Streamlit, Bria AI APIs*

Nov 2024 – Dec 2024

- Built a Streamlit app integrating Bria AI APIs for text-to-image generation, background removal, shadow effects, and lifestyle shots.
- Designed modular pipelines for multi-step image processing and real-time UI customization including CTA overlays.

Single-Image Self-Supervised Learning | *PyTorch, Deep Learning*

Oct 2024 – Dec 2024

- Developed a self-supervised computer vision model using custom pretext tasks (image inpainting, patch prediction) and contrastive learning for label-efficient representation learning.

Fraud Detection with Clustering & Anomaly Analysis | *Python, Scikit-learn*

2024

- Designed an unsupervised learning approach to detect fraudulent financial transactions and anomalous account behaviours.

TECHNICAL SKILLS

Programming & Tools: Python, TypeScript, JavaScript, SQL, Git, GitHub, Jupyter Notebooks, Agile (Monday.com)

Web Development: React.js, Next.js, Node.js, Express, TailwindCSS, HTML5, CSS3, REST APIs, GraphQL, Firebase, Supabase, MongoDB

ML & AI: Scikit-learn, TensorFlow, PyTorch, Keras, Deep Learning (CNN, RNN, NLP), Hugging Face, FAISS, LLMs, OpenCV, Computer Vision

Generative AI: Prompt Engineering, ChatGPT Enterprise, Microsoft Copilot, Google Gemini, LLaMA, DeepSeek, Bria AI

Data & Analytics: Pandas, NumPy, Power BI, Tableau, Matplotlib, Seaborn, Plotly, Excel, Snowflake, MuleSoft, AWS, ETL Pipelines

Cloud & DevOps: Microsoft Azure, AWS, GitHub Actions, CI/CD, Linux, Bash

CERTIFICATIONS

- Microsoft Power BI Data Analyst Associate
- Tableau Desktop Specialist
- AWS Cloud Practitioner
- Hugging Face NLP Course
- SQL — Intermediate & Advanced (Udemy)

ACHIEVEMENTS

- Gold Medalist, B.E. Computer Science (AI & ML) — Chandigarh University (2024), graduating top of class with CGPA 9.01/10.
- District Topper — High School Boards, scored 96.6%.
